SUMMARY

Aspiring Full-Stack Developer skilled in JavaScript, React.js, Node.js, Express.js, and modern frontend development. Strong foundation in REST APIs, UI design, component-driven architecture, and responsive development. Seeking a Full-Stack / MERN Developer internship to apply technical skills, build scalable web applications, and contribute to high-quality engineering outcomes.

EDUCATION

Datta Meghe College of Engineering, Airoli <i>Bachelor of Engineering, Computer Engineering</i>	2025 – Present <i>Navi Mumbai, India</i>
VPM's Polytechnic, Thane <i>Diploma in Computer Engineering</i>	2021 – 2024 <i>Thane, Maharashtra</i>

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Design, UI Components, React.js

Backend: Node.js, Express.js, REST API Development

Database: MongoDB (Learning), NoSQL Concepts

Tools & DevOps: Git, GitHub, VS Code, Postman, Basic Linux, DevOps (Exploring)

Programming: Core Java (OOP, Collections)

Soft Skills: Problem Solving, Collaboration, Requirement Understanding, Time Management

EXPERIENCE

Web Development Intern — Lazy Infotech <i>Frontend Development</i>	2023 <i>Remote, India</i>
– Developed and redesigned multiple website pages to enhance understanding of UI/UX and frontend workflows. – Built responsive layouts using HTML, CSS, and JavaScript improving design consistency across devices. – Strengthened skills in web aesthetics, color theory, component structuring, and reusable UI patterns.	

Java Developer Intern — Elevate Labs <i>Backend Development</i>	2025 <i>Remote, India</i>
– Completed hands-on tasks and assignments focused on Core Java, OOP, Collections, and backend problem solving. – Implemented mini-project features that improved logic-building, debugging, and modular code structuring. – Gained practical exposure to application-level Java development and clean backend architecture.	

PROJECTS

Quiz Application (JavaFX) Java, JavaFX, MVC	2025
– Designed and developed an interactive Quiz Application with JavaFX using a clean, modular MVC structure. – Implemented question navigation, scoring logic, and interactive UI components. – Gained hands-on experience in event handling, state management, and JavaFX layouts.	
Portfolio Website	2025
– Developed and deployed a personal portfolio using HTML, CSS, JavaScript, and React.js. – Integrated responsive components, navigation routing, and project showcases for professional branding.	
Life in Frames React, Tailwind CSS, JavaScript	2025
– Built a personal memory-keeping and travel photography web app to capture, organize, and revisit visual moments. – Designed a responsive and visually immersive UI to recreate emotions and experiences when browsing memories. – Implemented dynamic gallery rendering and smooth navigation using React component architecture.	
ResuStack – AI Resume Builder (SaaS) Next.js, React, Node.js, Express, MongoDB	2025
– Developed an AI-powered SaaS platform that generates ATS-optimized resumes for students and job seekers. – Implemented a credit-based pricing system to allow low-cost resume generation with premium AI features. – Built full-stack architecture using Next.js frontend and Node.js-Express backend with MongoDB for user data. – Integrated authentication, resume storage, and dynamic resume preview with export functionality.	

CURRENTLY LEARNING

- MERN Stack (Node.js, Express.js, React.js, MongoDB)
- DevOps fundamentals (CI/CD, Linux, Git workflows)
