

About Me

Entry-level Full-Stack / MERN Stack Developer with hands-on experience in React, Node.js, Express, and MongoDB, focused on building scalable web applications and collaborative platforms while contributing to production-ready software systems.

Education

Bachelor of Engineering – Computer Engineering

Datta Meghe College of Engineering, Airoli | Navi Mumbai
2026 – Present

Diploma in Computer Engineering

VPM's Polytechnic, Thane | Maharashtra
2021 – 2024

Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, RESTful API Development
Databases: MongoDB, MySQL
Programming: Core Java, Object-Oriented Programming (OOP)
Tools & Platforms: Git, GitHub, Linux
Concepts: MVC Architecture, Authentication, Clean Architecture
Soft Skills: Problem Solving, Team Collaboration, Time Management

Internship Experience

Java Developer Intern | Elevate Labs | 2025

- Constructed backend modules using Core Java, OOP principles, and the Collections framework.
- Improved mini-project features to strengthen logical reasoning, debugging efficiency, and code modularity.
- Applied clean architecture practices to improve maintainability and scalability of Java applications.

Web Development Intern | Lazytech Infotech Solution | 2023

- Redesigned and enhanced responsive web pages using HTML, CSS, and JavaScript, improving visual consistency across devices.
- Refined layouts to ensure cross-device compatibility, accessibility, and performance optimization.
- Standardized frontend workflows by creating reusable UI components and structured styling patterns.

Projects

QuickCV – AI Resume Builder

Tech Stack: Next.js, React.js, Node.js, Express.js, MongoDB 2025

- Built an AI-powered SaaS application that generates ATS-optimized resumes for job seekers.
- Integrated secure authentication, resume storage, dynamic previews, and export functionality.
- Created a controlled credit-based pricing model to manage AI feature usage.

WorkNest – Individual & Team Collaboration Platform

Tech Stack: React.js, Next.js, Firebase 2025

- Architected a full-stack collaboration platform supporting individual productivity and team-based workflows.
- Structured RESTful services for task management, shared data access, and team coordination.
- Enhanced application scalability and usability through a component-driven React architecture.

Quiz Application (JavaFX)

Tech Stack: Java, JavaFX, MVC Architecture 2025

- Developed a modular quiz application following MVC architectural principles.
- Implemented scoring mechanisms, navigation flow, and event-driven interactions.
- Designed structured desktop UI systems with efficient application state management.
